DETAILED ACTION

Allowable Subject Matter

Claims 1-4 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art fails to show or teach a zone formed in the neck cavity adjacent to an open bottom in the neck cavity wherein the light transmissive jacket of the light source is positioned in the open bottom, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Maglica et al. (US Patent 4,885,668) teaches a light transmissive jacket being positioned in an open bottom but lacks a reflective zone in the neck cavity.
